## INK FOR INK JET AND INK JET RECORDING DEVICE USING THE SAME INK

Publication number: JP2002275404 (A)

Publication date: 2002-09-25

Inventor(s): SHIMOMURA MASAKO + (SHIMOMURA MASAKO)

Applicant(s): CANON KK + (CANON INC)

Application number: JP20010082218 20010322

Priority number(s): JP20010082218 20010322

**Abstract of JP 2002275404 (A)**

**PROBLEM TO BE SOLVED:** To provide an ink capable of forming an image having excellent fretting resistance even when the ink is printed on a liquid nonabsorbing recording medium to form an image.

**SOLUTION:** This ink for ink jets is characterized as comprising at least a self-dispersible type pigment having one or more kinds of hydrophilic groups bound directly or through another atomic group to surfaces of pigment particles, an ultraviolet curing type monomer composed of a vinyl compound, a photopolymerization initiator and water.
